Abstract

Write a concise abstract (100–150 words). State the problem, your approach, key results, and impact in the African context.

Keywords: Generative AI; Data Science; Africa; Healthcare; Trustworthy AI

1 Introduction

Explain the motivation and the African context. Clearly state contributions.

2 Related Work

Summarize relevant literature and position your work.

3 Methods

Describe data, preprocessing, models, and evaluation. Include enough detail for reproducibility[1, 2].

4 Results

Present quantitative results and key qualitative insights. Use tables/figures (Figure 1 and table 1).

Figure 1: DSA 2026

Table 1: Example table. Keep tables readable and concise.

Model	Metric A	Metric B
Baseline	0.80	0.75
Ours	0.88	0.82

5 Discussion

Interpret results, limitations, and practical implications for African deployment (cost, compute, connectivity, language, etc.).

6 Conclusion

Summarize contributions and outline next steps.

Acknowledgments

(Optional) Funding and contributor acknowledgments.

A Appendix (Optional)

Keep appendices short.
Remember: the paper must remain within 5 pages including references.
